	IMAC manufactures Barlow insulating flange joints, monolithic VSI WE insulators, insulated joint test-stations and joint arrestors. Fully assembled, factory tested and made in the USA.
	Copperhead Industries offers an intelligent alternative to pure copper tracer wire. Copperhead Reinforced Tracer Wire is less expensive and six-times stronger.
	DUALCO manufacturers valve lubrication equipment and guns, couplers and fittings, lube adapters and valve maintenance products: lubricant, sealant and cleaners.
	ECSI manufactures fabricated piping products, including meter brackets and meter bends.
	IMAC provides gas measurement products, featuring the <i>Pulsimatic Transmitter</i> . They also supply cami-valves, gasket strainers, UNASCO gas-seal pipe joint tape and <i>Pete's Plugs</i> .
	Integrity Fusion Products provide HDPE butt fusion fittings, electrofusion fittings, full port HDPE valves for water and gas, electrofusion processor, clamps, tools, and fusion equipment.
	Itron manufactures gas diaphragm meters, commercial/industrial meters and gas regulators to meet the requirements of gas suppliers and contractors.
	Jomar provides valve solutions for industrial, plumbing, gas and HVAC applications; including locking gas service ball valves and their insulated version.
	Mercury Instruments , now part of Honeywell manufactures electronic and mechanical instruments which measure and monitor gas, pressure, temperature volume and flow.
	PipeWrap offers solutions to reduce downtime and costs to replace compromised pipe. Easy to use, provides live leak repair, reinforcement, corrosion control or isolation.
	PTS specializes in fabricating natural gas and petroleum equipment and vessels.
	Rhino Marking and Protection Systems offer innovative ways to mark and protect buried facilities to ensure safety and protect the environment.
	Sage Metering manufactures insertion and inline thermal mass flow meters to monitor flow rate and measure the consumption of various gases, including natural gas and propane.
	Sensit Technologies manufactures state-of-the-art gas detection products to help protect life, property and the environment from combustible, toxic and refrigerant gases.
	Shawndra Products manufactures <i>Sparks Filters</i> ; economical filter elements for most applications, including filtering natural gas from well heads and pipelines, and H ₂ S removal.
	T.E.R.I. manufactures and repairs indirect fired water bath heaters.
	SureFire Burner Management Systems manufactures <i>sparkless</i> ignition systems.
	Trenton Corporation produces anticorrosion systems for effective, long-lasting protection of above and below ground pipelines and irregular fittings.
	Zeck Systems produces various volume odorant injection systems with communication and monitoring capabilities.
