## ABOUT US

As a manufacturers' agent and distributor we specialize in measurement, monitoring and regulation of natural gas. We also offer a wide range of damage prevention solutions to avert potential disasters and keep people safe. For over twenty years the business has provided utility contractor services, specializing in advanced flow electronic metering systems. We're also cathodic protection specialists and offer Operator Qualification training.

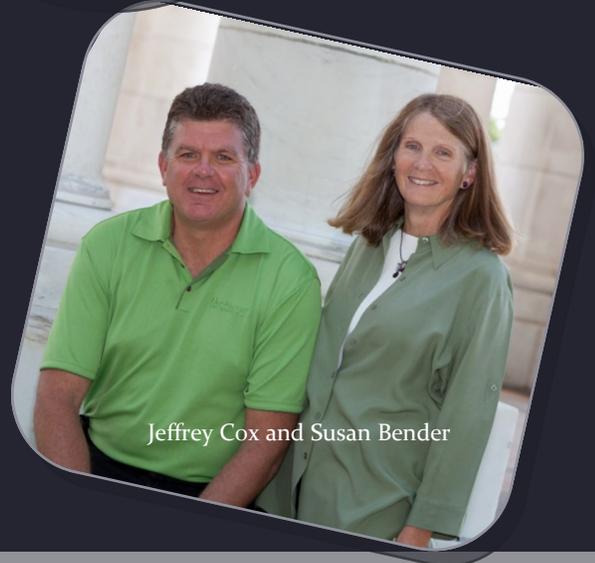

Founded in 1990 by Susan Bender, the company maintains its woman-owned business enterprise status. Under the leadership of Susan Bender as CEO and President, and Jeffrey Cox as Vice President of Sales, the company has earned a reputation for providing exceptional services and quality products having received the 2011 and 2012 U.S. Commerce Association Award for Best Manufacturers' Representatives and Agents and the Public Service Company (Xcel Energy) WBE Business of the Year Award.

**LincEnergy**
