

# RhinoPoly™ Signs

These brightly colored signs are made with a UV stable proprietary blend of thermoplastics, and are specifically designed for outdoor usage. They are non-toxic and environmentally safe.

### Gunshot Resistant

Bullets pass cleanly through RhinoPoly Signs, leaving them legible. Gunshots do not cause chipping or rusting, and unlike aluminum, RhinoPoly has no scrap value.

### Temperature Stable

RhinoPoly remains stable from -50° to +150°F.

### 10 Year Warranty

RhinoPoly will not become brittle or fade significantly for a minimum of 10 years.

### Colors

Available in all APWA colors. Standard material colors are orange, white, yellow, blue, green, red, purple and brown. Standard print colors are orange, white, yellow, blue, red, green, brown, purple and black. Custom RhinoPoly colors are available but may require a minimum order or a matching color charge. Custom Print colors may be available. Call for details.

### Standard Sizes and Thickness

Standard Thickness: .140" Poly  
Standard Sizes:  
9" x 12"  
API 12" Round

### Custom Legends

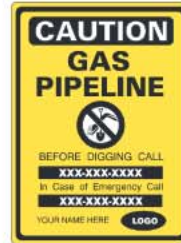

Any legend can be printed on our Screen Printed RhinoPoly Signs. The signs may be single sided or double sided.

### Sign Saver Bracket

Sign Saver Brackets can prevent signs from being deformed during attachment to 1.12 lb. or 2 lb. U-channel posts. The aluminum bracket is 3"W x 2"H with a 3/8" center hole.
