

RhinoDome™ Marker Post

The round design of the RhinoDome makes it visible from any direction. It consists of a specially formulated plastic post, with a 21" polycarbonate dome and a 10" anchor tube. The RhinoDome has a 3.5" outside diameter and includes a one color graphic on 2 sides.

Temperature and UV Stable

The RhinoDome is stable from -40° F to +175° F and is UV stabilized.

Durable

The RhinoDome is capable of withstanding a minimum of one vehicle impact at 45 mph. The RhinoDome will return upright within 10° of vertical within 60 seconds.
