

# REGULATOR SIZING CHEAT SHEET

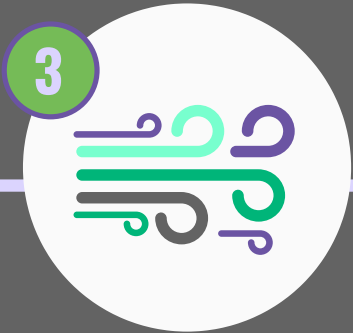

Gather the following:

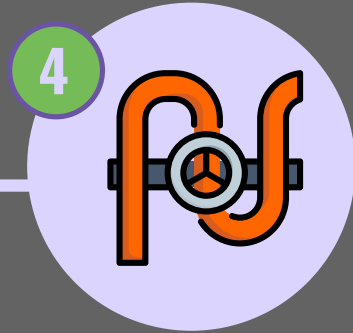

What is the **inlet** pressure and the desired **outlet** pressure? (PSIG or WC)

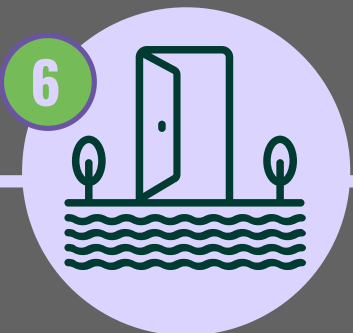

What **type** of gas are you regulating?

What is the gas flow range? (BTU/hr or CFH)

What is the pipe size?

Is the regulator to be indoors or outdoors?

What is the altitude?

Will noise be an issue?

**Call**
