Atmospheric Exhaust Filter

Description: The IMAC Atmospheric Exhaust Filter is designed to reduce third party customer complaints at stations with natural gas bleed lines. The Atmospheric Exhaust filter (scrubber) removes mercaptan odor / odorant from natural gas bleed and natural gas vents.

Installation: Remove inlet and outlet covers
Pipe into place with vent side facing away from rainfall.

Applications: Instrumentation vents or bleed systems that vent odorized natural gas; including intermittent or constant bleed lines. Examples include instrumentation panels, relief valves, control valves, regulators, pneumatic controllers, and odorant tanks

Specifications: Available in a variety of sizes;
Common sizes include 15G, 35G and 55G
Inlet Options: ¼" thru 2"
Outlet: Open Vent
Working Pressure: Atmospheric
Material: Plastic Polymer Body

Media: Activated Charcoal

*Specifications subject to change without notice.
