

**BelGAS P134**

Scope: This is the specification and release of the BelGAS P134 pressure reducing regulator offering, a new variation of the existing P133.

The P134 has an onboard registration tube, circled in the figure at left, allowing for the regulator to be installed without the external pressure registration necessary on the P133.

All existing [P133](#) flow and pressure information is applicable to the P134. All existing P133 body/vent orientations, body connections, spring ranges, and trim options are available with the P134. The fourth character is changed to a “4” in the existing BelGAS P133 ordering matrix.

**P134 Ordering Matrix**

P	1	3	<b>4</b>	X	X	X	X	X	X	X	X	X	X	X
---	---	---	----------	---	---	---	---	---	---	---	---	---	---	---
